COLD FROM THE PLANETARY MINE

Sale of 100 Shares Recorded This | Samples from the 100 Level Show Abundance of Free Gold.

THE VEIN IS VERY LARGE.

To Work Atlanta Mines-Ctah Dividend - Yankee Con. Meeting . Notes from Other Camps.

Some very rich samples of gold ore have just been received by J. H. Clive from the Planetary mine of Park Valley, which he and others have bonded made as low as \$1.15, with the closing for a good round sum. Some of the rock was taken from the drift on the 100 level, which is entering a very good 5 shares at \$36.00. Dexter sold down grade of ore on the hanging wall. to 69. Dalton & Lark let go an odd Samples taken from a 5-foot breast were panned today and showed an abundance of free gold, some of it being quite course. The vein has been crosscut on this level and found to be 52 feet wide between the two walls, which are composed of mica schist and granite. An average sample from the face of the drift showed between \$16 and \$20 in gold per ton though smaller streaks of ore occur in the veln which assay as high as \$63 per ton. The ore is identical in appearance with that found in the Century. To the naked eye the free gold is not discernable, but when panned an abundance of golden grains disclosed. A small force is en-gaged in crosscutting from the 170 level, which is the bottom of the shaft. The ore is highly oxidized and gives promise of eventually becoming as rich a mine as the Century, its neighbor.

Developments at the Fortune.

A small force of three or three men is employed at the Fortune mine of Bing-ham, but Manager Hill expects to be to shortly start a larger force. The present force is engaged in making air connection between the Free-dom and Keystone tunnes. The mine, as is known, has been opened up by a series of tunnels driven on the vein. Air connection has been made between the lower tunnels and the present raise is between and second and third tunnes. A fine body of copper are is here reported running as high as 38 per cent. The vein is from 2 to 12 feet wide. A 4-foot body of fine lead ore has also been encountered lately. With present financial difficulties adjusted Mr. Hill says the mill can easily be made to turn out some money. During the last month's run just before the mill closed down last December, the company is said to have cleaned up company has notified by the Jordan Narrows Power plant that it is now prepared to supply power, and it is expected the Fortune people will be able to so adjust matters that they may resume operations at an early date.

Utah Directors Meeting.

The directors of the Utah Mining company are scheduled to meet tomorrow, at which time action will be tak-en on the May dividend. The Utah is responding very nicely this year in spite of the long wagon haul to the railroad and it is fully expected that a dividend of two cents a share will be posted at the meeting. The company has just marketed a car of ore for \$2,675 and another car of similar ore is now on the way to market. In addition to this the teams are on their way to the mine for another 30 tons of ore.

Yankee Con. Meeting.

A special meeting of the shareholders of the Yankee Con. Mining company is called for tomorrow afternoon to consider the proposition of increasing the capital stock so as to take in the Humbug purchase by the Franklin Syndi-The control of the Yankee Con. is also in the hands of this syndicate and there is no doubt as to the out-come. The capital stock will be doubled to 500,000 shares and of this amount 250,000 shares will be turned over to the Franklin Syndicate, who will also receive a share in the new company for every Yankee Con. they now hold. The stock will have a par value of \$100 per share.

Interested in the Mining Congress W. H. Savidge, assistant secretary of the International Mining Congress, has returned from a visit to Portland, Spokane and the Coeur d'Alene mining section, says the Boise News. He says the people of the sections he has visited seem to be more interested in the congress that the people in Blose. The mining cities visited are said to be very anxious to arrange for excursions of the delegates present at the congress, to visit their sections, and be their guests, and visit their mines.

Kanosh Mines Active.

Special Correspondence. Kanosh, May 23.-The "Old Spanish Mining company," located east from Kanosh, are silencing all doubters about the value of their property. They now have a road made from this town to the mine where they now have six-teen men employed. Yesterday Mr. teen men employed. Yesterday Mr. R. M. Keen, one of the original loca-tors and present manager of the company bought for cash from Mr. Rick that gentleman's saw mill in the viciniy of the mines. Rick will in the future work for the Old Spanish Mining

Location Notices Filed.

Snyder et al: May Day Extension,
Glacier and Pyretie, by John Cleghorn
et al, all located in Silver Lake mining No. 2, in Lehi mining district, by W district; Coleman, Kaolin and Koalin C. Coleman te al.

Republic Placer Profits.

The new placer diggings at Republic, while yet in the prospect stage, are said to be turning out about \$100 per day. The Spokane Review, says D. C. Jackling, of Mercur fame, was at the cleanup on the 20th inst., when a numper of \$3 and \$4 nuggets were found. Prospecting is still going on and colors are being found in several places in

Start Work in Old Atlanta Mines.

The Boise (Ida.) News says that the Golden Age Mining company will put a force of twenty men at work on its properties at Atlanta next week.

These mines have not been worked for some fourteen years owing to litigation and their former output is not

AND THE PROPERTY OF THE PROPER attainable. Extensive work was done by the former owners, but the meth-ods of mining and the engineering were of the worst character imaginable. There are three tunnels on the properties known as the Yuba, Craig and Davies. The Yuba is in 2,400 feet and taps the mountain at a depth of 1,600 feet. These tunnels, however, are bad-ly caved and inspection of the mines

was impossible. The ores are characteristic of that -a district that has produced fully \$58,000,000 in the past. Of this gigantic sum the Buffalo produced \$3,985,000 from 530 feet of ore vein. The Mammoth and Pettit mines immediately adjacent produced over \$10,000,000, and there is no reason to believe the properties of the Golden Age company are less valuable than their neighbors on the same lead.

MINING NOTES.

W. G. Filer is back from the Annie Laurie at Gold Mountain. A shipment was reported today from

a mine near Reno. Nevada. A car of ore was on the market today from the Utah Queen of Dry Canon. The Ophir Hill was on the market today with eighteen cars of concer-

trates. Engineer Burke of the firm of Dederichs & Burke has returned from Mo-

The Columbia of Bingham will market two cars of copper concentrates

The friends of Duncan McVichle will be pleased to know that his health is improving. The Conklin sampler reported two

cars of ore from Tintic and two from Bingham today. The Taylor Brunton sampler reported nineteen cars of ore from Stockton and

one from Nevada today. Judge Morris Sommer left for Park City this morning to examine the St Louis-Ontario and East Ontario proper-

The last shipment of cyanides from the Horseshoe at Fay, Nev., is said to have run higher than usual going up to \$100 per pound.

F. H. Lathrop, who has just returned from Bingham, reports work being pushed at the New Mammoth without any special change.

Ben Luce has been elected a member of the listing committee of the Mining Exchange in the place of Moses W. Taylor, who has resigned. Three cars of Red Wing ore were

on the market from the Teachenor lease, which is to be relinquished on June 1st. The company will thereafter operate the property. Mr. P. L. Kimberley was closeted in W. F. Snyder's office all the morning considering several deals which are

Superintendent Craig of the Yampa, reports a flow of about thirty gallons of water in the lower tunnel of the property which is now in 200 feet.

The flow was struck yesterday. Baker City Democrat: Arthur Buckbee, manager of the Virtue Consol dated mines, returned yesterday from a business trip to Salt Lake and went out to the Virtue mine yesterday afternoon.

feet sunk on the Grand View shaft, near Pinhook, under the contract let some time ago by the Grand View company, opened into a fine body of ore. Austin Reveille: W. B. Andrew and

Moab Times: The last foot of the 100

G. B. Lake, mining men, arrived from Salt Lake Tuesday night and went up to Galena yesterday to inspect the Ne. vada company's property at that place. An excursion to Park City on Sun-

day is being worked up by Will Hig gins and J. T. Fulton. The round trip will be \$1.50 and the train will leave Salt Lake at 9:30 a. m., going and Park City at 7 p. m., returning. It is expected that a great many citizens will avail themselves of the opportunity to see the bonanzas of the camp.

Boise Statesman: Frederick Irwin, superintendent of the work of the War Eagle company at the Sinker creek tunnel, who spent a couple of days in Boise, says that the tunnel is now in 4.100 feet and is being pushed on into the heart of War Eagle mountain at the rate of nine feet a day. The length of the tunnel when completed will be 300 feet. It is expected after the 5,000 -mark has been passed the tunnel will begin to cut some of the big ledges that produced so much wealth in the early days as the result of operations nearer

MARKET SOME DEPRESSED

Purchasing Outstripped Liquidating Sales and

Sharp Drive at Union Pacific, Which Was Well Supported - Market Strong in Last Hour.

New York, May 24.—There were traces of yesterday's late depression remaining in the market this morning, but special stocks showed some strength as an offset. The purchasing movement outstripped the liquidating sales and many important gains were made, Trading was largest in the coal stocks and Erie common and the Readings were a point or more better. Lackawanna went up 51/2, and Union Pacific, Texas Pacific, Missouri Pacific, Sugar and the coppers were also strong. American Tobacco gained 4 and Continental Tobacco 114. A drive against Union Pacific carried it down 214, and there were sympathetic losses of over a point in St. Paul, Erie, Atchison, Amalgamated Copper, Reading and Missouri Pacific. Support developed for Union Pacific attack it totaked 25 for Union Pacific after it touched The general market meanwhile had suf fered sharply, St. Paul exception yly losing 21/2. With a recovery to above 99 in Union Pacific, other stocks hardened, but the demand was small and the only rise of consequence was in

American Tobacco.

The stock was taken in round amounts, a block of 5,300 shares coming out at 130. It was marked up to 1301/2 and then droped. Lackawanna broke 4½ and North-west 3 points. The market at noon was about steady and was semi-stag-

The market showed some strength in the last hour, but any notable mani-festation was confined to a few stocks. The Tobacco stocks continued to rising, American Tobacco rising to 24. Atchison and Wabash preferred rose strong-ly to the best of the day, 2¼ and 2 points over last night. Union Pacific, Erie and the New York public utilities also railied strongly and prices erally were marked up smartly on light transactions. The United States Steel stocks rose about a point over last night. The closing was active and firm at the rally.
